

# February 2014 RVCC Newsletter

## FROM THE PRESIDENT

---

### Financials

- We held the regular monthly meeting Saturday.
- Jeff reported that the dues, received at this point in time, is in line with the last few years.
- Thanks to all of you who do join early to keep our cash flow going.
- As you know, the bills are here every month regardless.

### The Course

- Fred gave his report and one concern we all have is the winter damage to the greens from such a vicious winter.
- Probably means a larger expense for us to get them back to good condition.
- Everything else appeared to be routine. Mowers sharpened and equipment in good shape.
- Looking into needle tine aerator to help with greens.
- We are looking to finish #2 and #7 tee boxes as soon as the winter breaks.
- Also, we will finish the gravel cart path up #13. We felt that by making this gravel, we might have a better chance of using these holes when it is wet up there by doing cart path only.
- We are still researching the sand trap issues. Not the best time of year to look at them under all of the snow, but want you to know, they are not far from our mind.
- Looking at changing from propane to natural gas in maintenance building. Couldn't get gas when we built it but can now.

### The Clubhouse

- Need to look at tables and chairs in clubhouse as well as bar stools as to plan for replacement in future.

All in all, we are looking forward to a good year. Hope it gets warmer as we have had enough of the cold and snow. Guess we should be glad we have not had a lot of icy roadways.
