

July Newsletter - 2015

We held our regular meeting with not much news to report.

Course

- We still need to address the stream by #15 as stated in previous reports.
- Jeff contacted the townships who will try to help us out as they often need gravel.

Finances

- The financial situation is on par with last year which is good news.
- Jeff reports that memberships are up

Clubhouse

- A motion was made to renew the liquor license so that should make some people happy....in more ways than one!!!

Leagues and Tournaments

- League dinners are starting this week so keep that in mind if you play leagues.
- We have many tournaments with one or two almost every weekend.
- If you don't golf in these, you might find some of them quite fun.
- Most raise money for a good cause so even if your !game isn't par, the support is greatly appreciated. Get a team and join us or let us know you are interested and if a team needs a player, we will give them the info.
- The next big event for us is Member/Guest August 14-16. The practice round if desired is Friday with a mini tournament. This one fills up fast so get signed up if interested.
- We are looking to develop a plan to help shorter hitting golfers have fun on our course.If you couldn't hit the fairway from the tees you are using, it certainly would get old taking bogies, doubles or worse. Think we will try to find a way to keep things fun but fair for all especially if these golfers play leagues or tournaments.

That was about it for business. We want to review the machinery list, the clubhouse needs and the course needs such as finishing the sandtraps. Money is the issue but we do a little each year so we are moving forward.

Hit em straight!
