

June Newsletter - 2015

Golfing friends,

- Things are going pretty well at RV. We met and heard reports from the departments as to just how well that is. I'll share these with you.

The Course and Facilities

- **Equipment Issues**
 - **Toro** - sent for repair with the blower not working. It is now fixed.
 - **Gator** - clutch went bad with a price tag of \$1400 parts, \$400 labor.
 - **Steiner** - had a bearing go in the deck but this is the first real problem with it and it is a 2004 model.
- **Greens and Sand Traps**
 - They are getting yellow spots which are being addressed. Fred requested permission to get chemicals to combat this if it gets out of control.
 - Sand Traps are being addressed as well as can be.
 - The greens and course in general is the best ever.
- **Jemison Creek** - Needs examined by hole 15 as it is cutting into the area headed for our course if not changed. We will get permission to do this as we have in the past.
- **Green Carts** - We had an offer to trade the green carts for Yamahas which are supposed to be better. Well, after the offer changed, the Board didn't feel comfortable so we haven't done anything at this time.
- **Pro Shop and Bar Area** - Jeff reported we are holding our own in these areas.

Financials

- Karen reports that all bills are paid.
- We are a little behind in income but not unexpected with the weather.

Tournaments

- **Member/Member**
 - Times will be in the morning both days again.
 - Pricing will be the same. Please sign up!
- **Member/Guest**
 - No major changes.
- **The First Tee**
 - They would like to put up a banner to show we support the program.

That's about it for this month. Have fun golfing. Course is in great shape and all it needs is you!

MG Schwarz, President
