

January 2016 Newsletter

The Course

- Fred has sharpened all of the mower blades, maintained the mowers, etc., and is waiting on rough mower to be given a complete overhaul to keep it up to full operation.
- Fred asked for mower brushes for the fairway mowers like we tried last summer which separates the grass clumps we all complain about.

Financials

- Jeff gave the financial report with about the same number of renewal memberships in as last year which is a good sign.

Other Items

- Our 20 new Club Carts arrived.
- We are advertising the coal stove for sale since we have the new AC/heating units up and running.
- The milk house attached to the barn houses our electric box for that area and was falling down. Bob Bartoo, Jerry Abbott and I (supervising) build one to take care of the need.
- We will be replacing the kitchen sink and plumbing right after the Super Bowl party. Think we will add a dishwasher too.
- The wind blew the gazebo roofs off, so we have decided to replace them with a permanent fixture.
- The Board is discussing new rules for the Hole in One Club.
- We are looking at a new Senior men tee box setup so that more can enjoy the game as should be. Rules for this are in the making too.

Michael Schwarz, President
